Result Framework Document For Anthropological Survey of India Under Ministry of Culture

(Half-Yearly Achievement April 1, 2011- September 30, 2011)

Section 1:

Vision, Mission, Objectives and Functions

Vision

- To build state-of-the-art Infrastructure for advanced Anthropological Research in the Country.
- To understand and document bio-cultural heritage of Indian population.
- To pave the way for the fulfilment of India as a Developed Nation by 2020.

Mission

- Mapping Bio-Cultural Profile of Indian population utilising manpower specialized in Cultural and Physical Anthropology, Human Ecology, Psychology, Biochemistry, Linguistics and Folklore.
- Develop the organization as launching pad for high technology based research to be applied in human development
- Understanding, documenting, preparing database and disseminating bio-cultural diversity of Indian population through published research work, seminars, workshops, awareness programmes, audio-visual documentation, museum documentation and so on.
- Development of Library for facilitating Research in Anthropology.

Objectives

1. Documentation & Dissemination: Library, Museum and Exhibition
2. Fellowship Programme as part of manpower development as a resource

3. Manpower Outsourcing, Training of Manpower, Meetings of National Advisory Council (NAC) and Meetings of the Executive Committee (EC)
4. Collaborative Schemes
5. Information Technology
6. Cultural Exchange Programme
7. Impact Publication of Research Findings in the form of book, scientific paper and articles in journals in terms of contribution to basic science or direct application to make research findings visible
8. Induction of DNA Technology
9. Functional Modernization of New and Existing Office Buildings/minor works/furnishing
10. International / National Conference
11. DNA Polymorphism of the Contemporary Indian Populations
12. Physical Growth & Development of Children in Northeast India – A Public Health Issue
13. International School of Anthropology
14. Community Genetics and Health (Community Genetics Extension Programme)
15. Narmada Valley Excavation
16. DNA Banking
17. People of India: Cultural Diversity (New Project)
18. People of India: Bio-cultural Adaptations (New Project)
19. Social Impact Assessment (SIA) Study (New Project)

Functions

1. The Anthropological Survey of India makes efforts to understand the Indian population in a scientific way not only for the furtherance of scientific knowledge *per se* but for its application towards the country's needs and also to its national well being.
2. The Anthropological Survey of India rose to every occasion to contribute its might through its mandate of pursuing research in socio-cultural and physical/biological aspects of the peoples of India in a holistic perspective with an emphasis on the matters of contemporary relevance and national significance.
3. After independence, the need to bring in harmony among the people and to devise ways and means for the tribal and disadvantaged social groups to suitably adjust to the changing conditions in and outside the country, without jeopardizing their ways of life, was the challenging task for India. The Anthropological Survey of India is contributing since its inception for understanding the people of India by its coverage of the entire length and breadth of the country and its human surface through its various research projects, widely accepted publications and ethnographic films.
4. The Anthropological Survey of India kept itself abreast of the new challenges facing the humanity and tuned it to reap the benefits of the emerging technologies all over, for the benefit of human kind.
